

Greetings 12AA Teams,

The City of Prior Lake has closed one of the two entrances to the Ponds Baseball Park due to a construction project. You now can only enter Ponds from the south entrance on Mushtown Road across the street from the Ryan park entrance. This will cause significant traffic slowdowns and we urge all teams to carpool where possible and add extra time and patience for arrivals. See attached map for reference and let all your team families know as their GPS' will send them to the closed entrance as most of you will be coming from the north.

Please Note:

- 1 - The entrance/exit at Mushtown Rd is the only way in/out of Ponds.
- 2 - Please drive with caution and be prepared to be patient when entering or exiting either park (Ponds or Ryan). This street goes through a residential area. The speed is slower and there are cars parked on the street on both sides so please drive with caution and consideration.
- 3 - There are 3 parking lots at Ponds. The first one is the smallest and will be the first you see, across from Field 8. The other two are on the North end of the park by concessions and around the corner by the football field. (See map)
- 4 - There is no parking allowed on the grass anywhere at Ponds or Ryan. Parking is only allowed in marked parking in one of the parking lots. Fans are strongly encouraged to carpool whenever possible.
- 5 - Any cars parked illegally are subject to being ticketed by the local Police Department and are subject to being towed at driver's expense.
